

Bob Pantaliano has more than 25 years experience successfully directing the finances and operations of small to mid-sized businesses as staff CFO. Currently as President of CFO 360, he consults with businesses lacking the necessary budget to add a full time CFO to staff, relieving the owners of the burden of protecting corporate assets.

Bob uncovers areas of growth and profitability by supplementing traditional financial reporting with customized, detailed management tools such as core business analysis, revenue stream analysis and benchmarking. His methods have helped companies understand how to survive the economic downturn of recent years by learning to live with less to remain profitable.

Bob has a passion for substantially improving the financial knowledge and financial results for clients, providing in depth views of their historical and current performing trends and with indicators that project future results.

Bob also serves as board member and Treasurer of the Durand Foundation in Mt. Laurel.
